

ErgoForms Demo CD

We are pleased to provide purchasers of *The Measure of Man and Woman* with sample PDF files of scaled figures from ErgoForms, a library of figures based on those in the book. The complete ErgoForms library includes 2D scaleable figures that can be imported into CAD formats, posed in different positions and shown using various products. ErgoForms are designed for use by architects, engineers, industrial and interior designers, students, and artists.

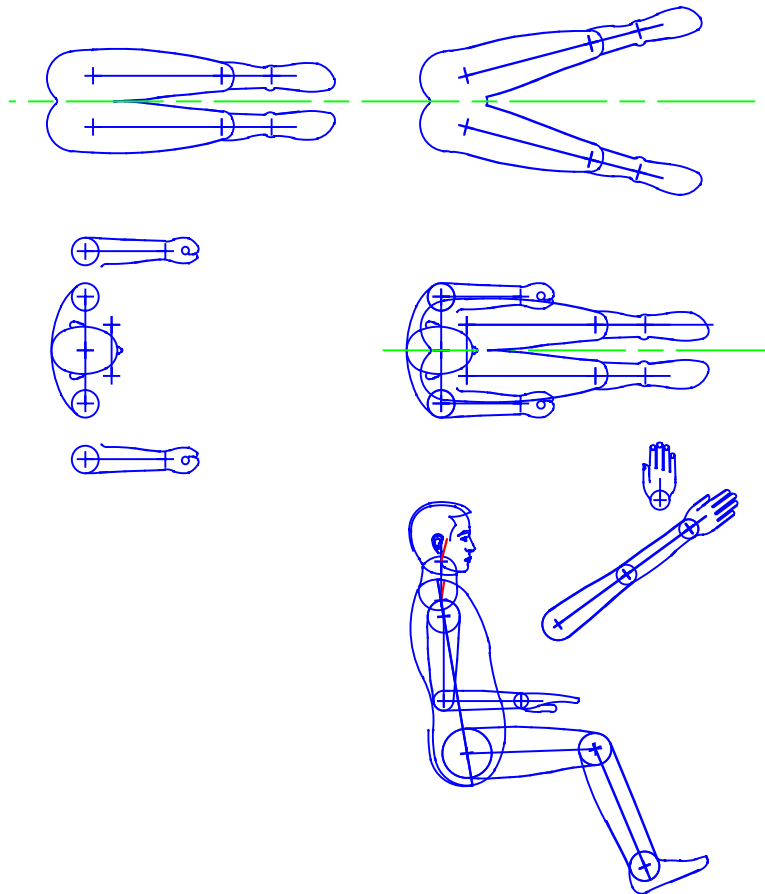

THIS DEMO CD CONTAINS:

- Step-by-step illustrations of how to use ErgoForms.
- Samples for CAD program users to import into DXF, DWG and Vellum formats

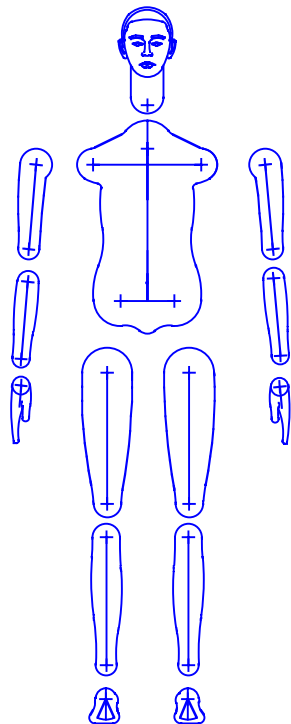

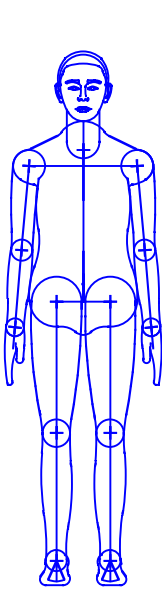

FOR MORE INFORMATION ABOUT ErgoForms OR TO ORDER THE COMPLETE ErgoForms LIBRARY OF FIGURES, VISIT <http://www.ergoforms.com>

50 PERCENTILE MAN

50 PERCENTILE MAN

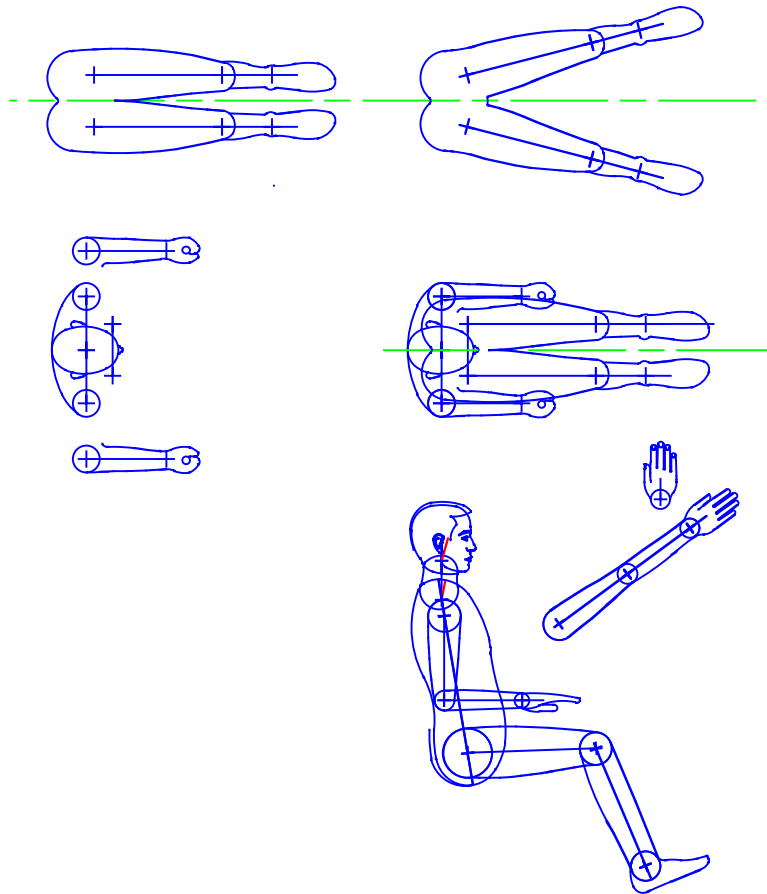

50 PERCENTILE MAN

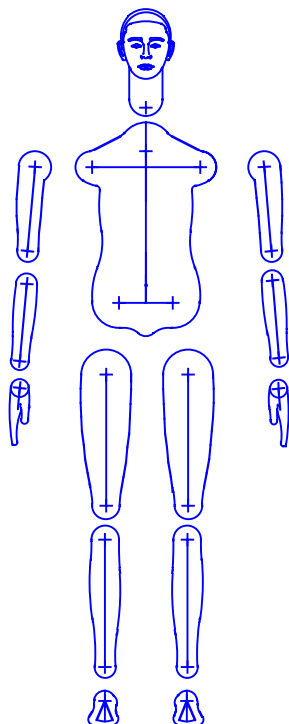

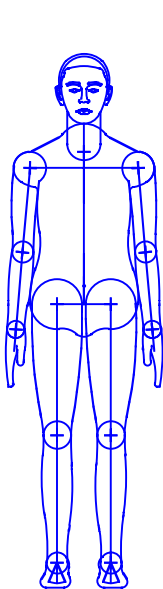

1. Select figure set.

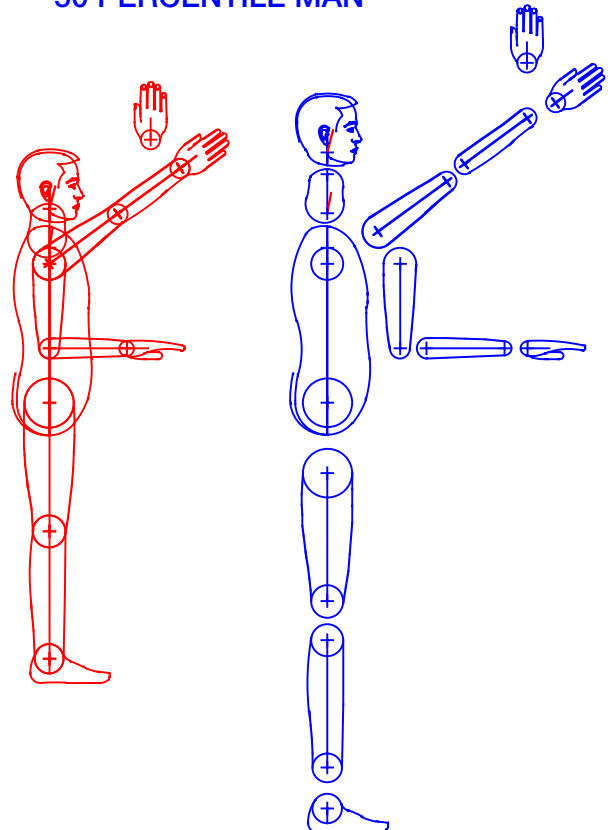

50 PERCENTILE MAN

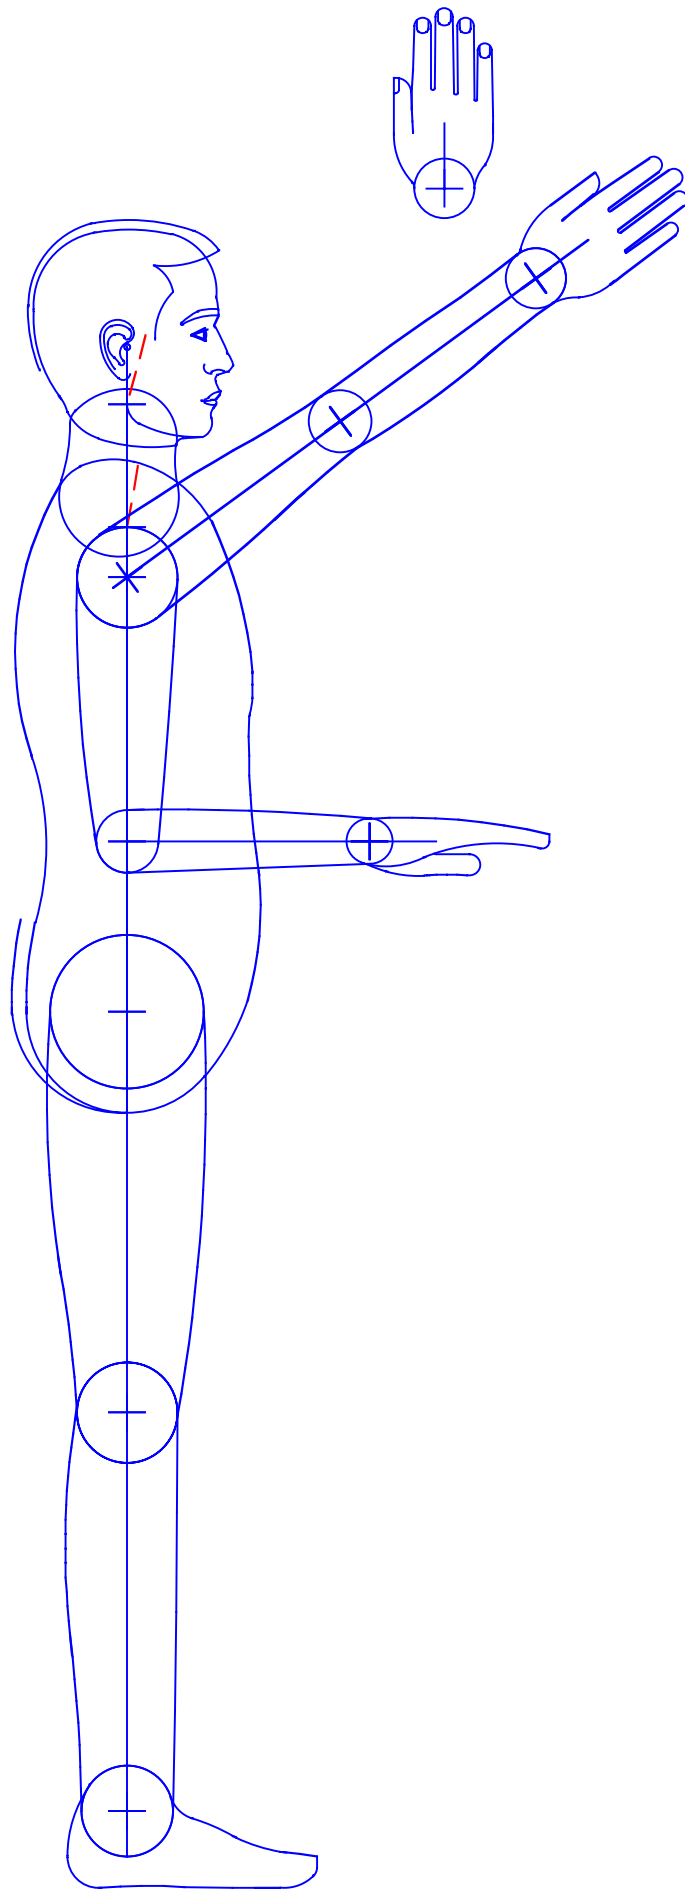

50 PERCENTILE MAN

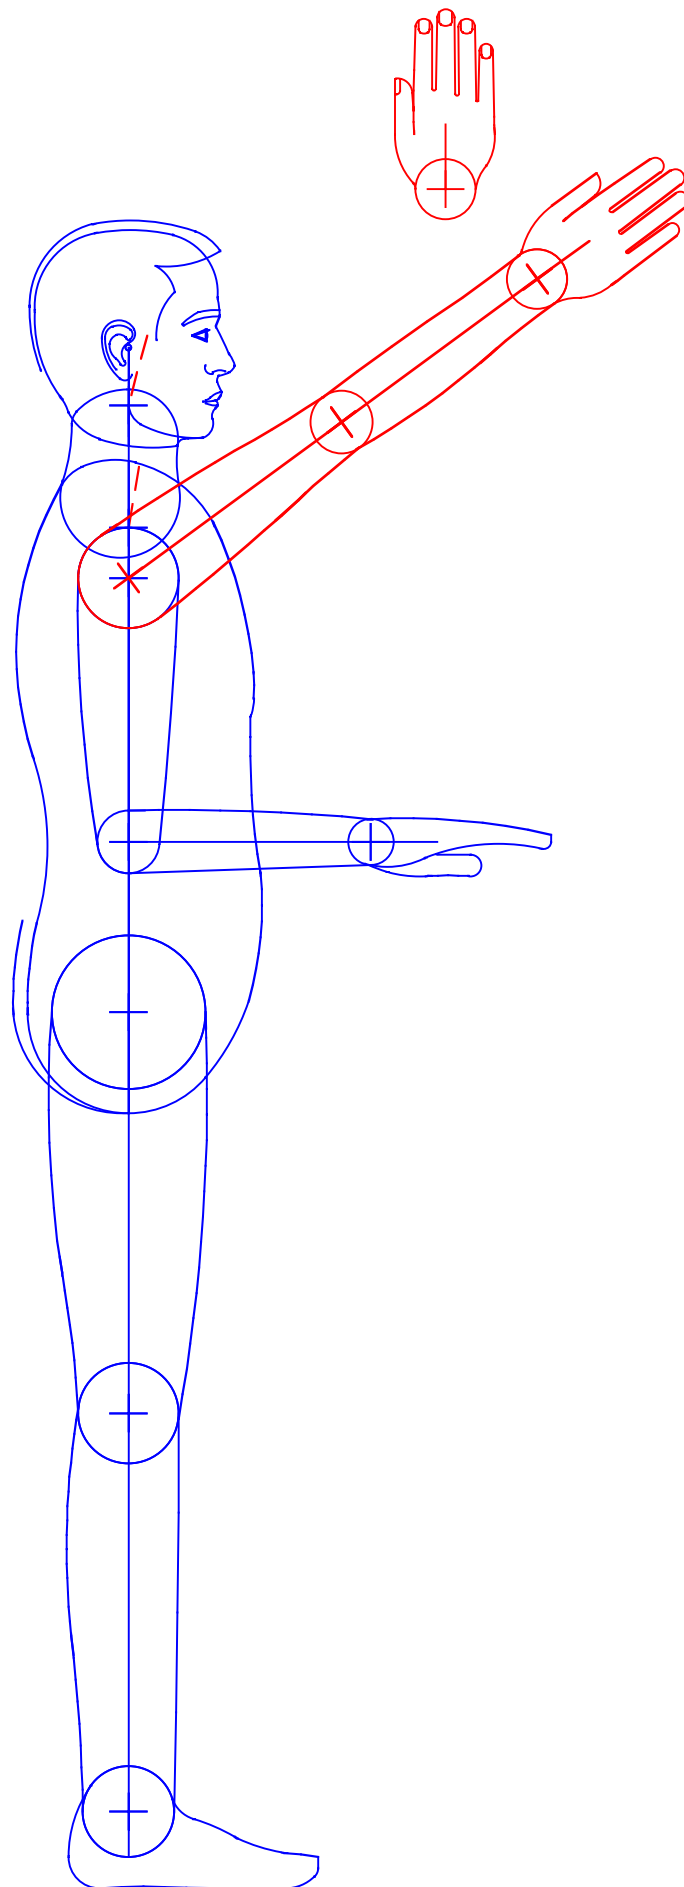

50 PERCENTILE MAN

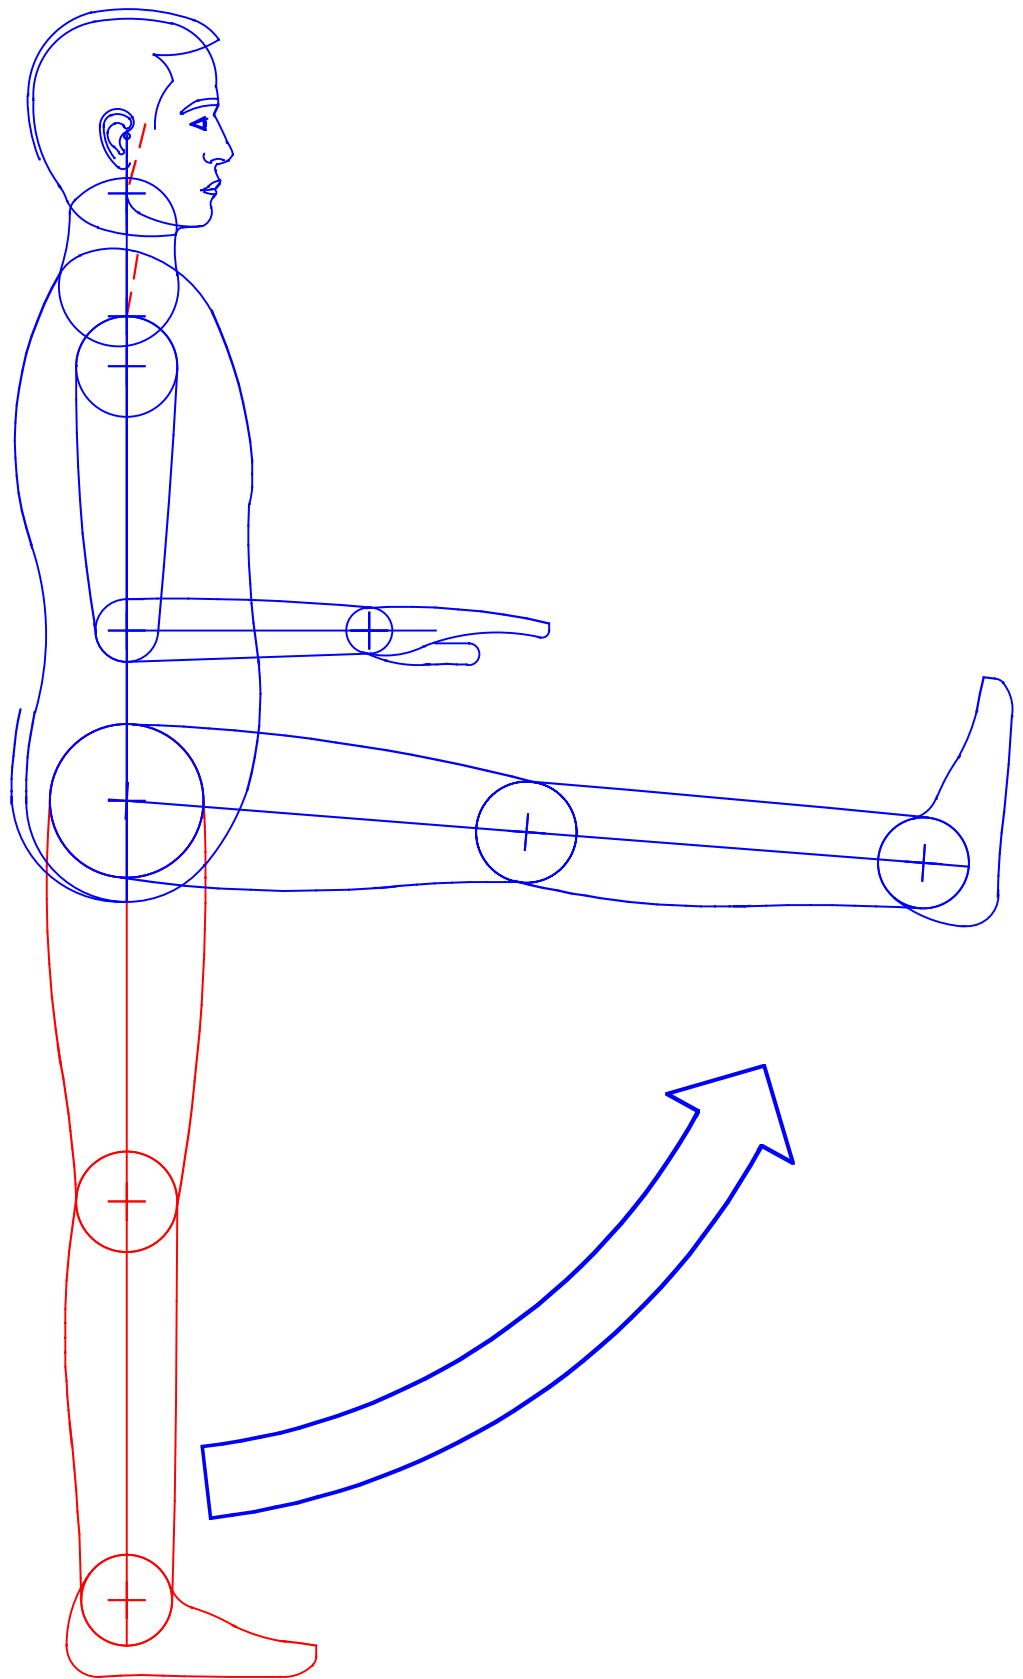

2. Select front or side view. For this example we chose side view.

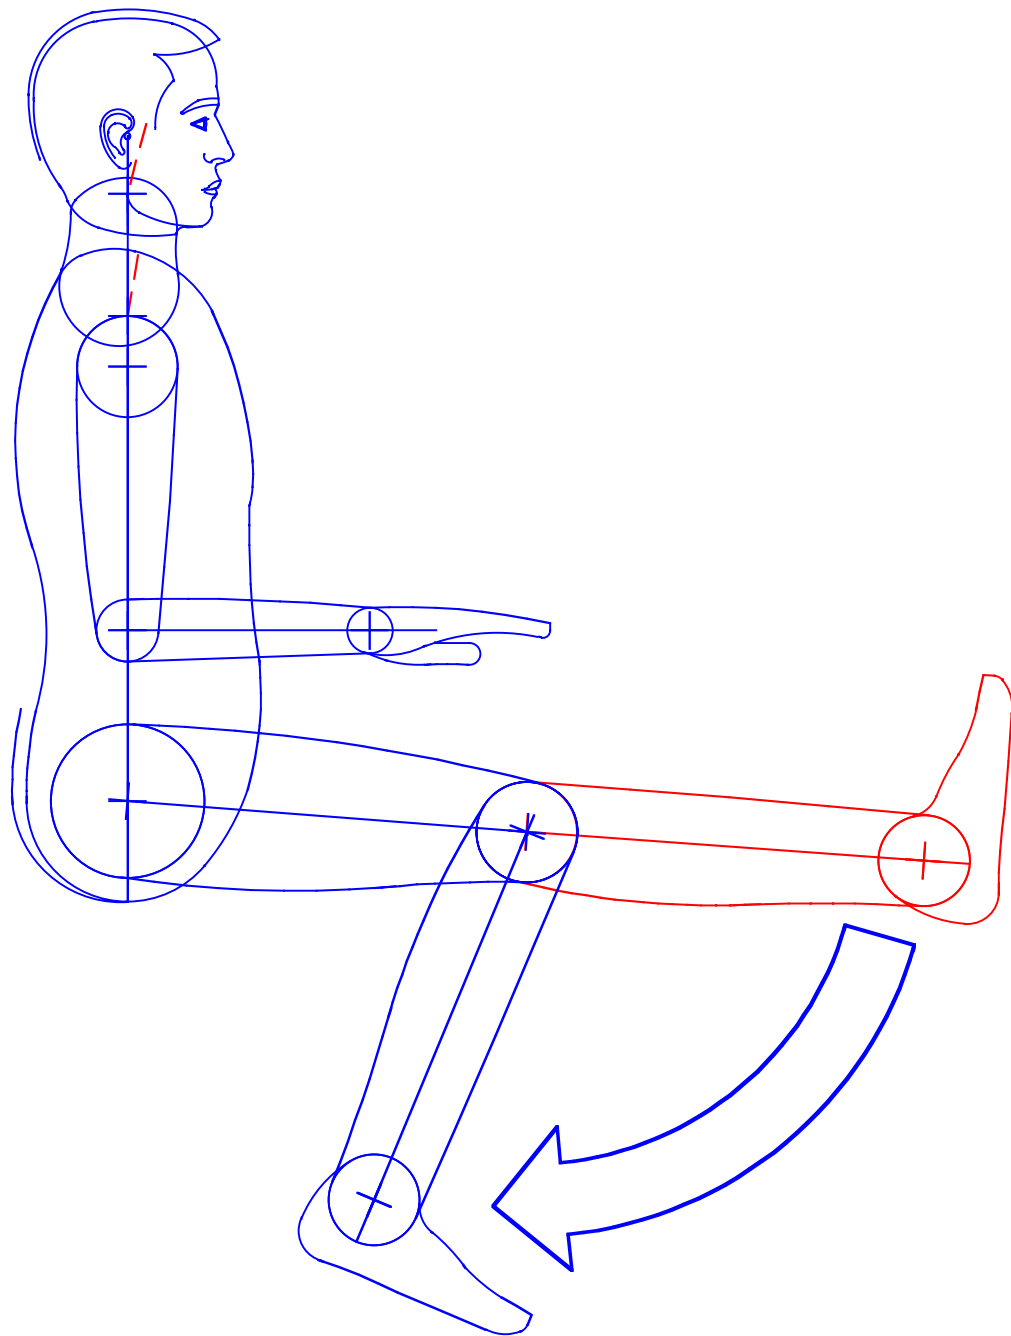

3. Import the figure into your scene.

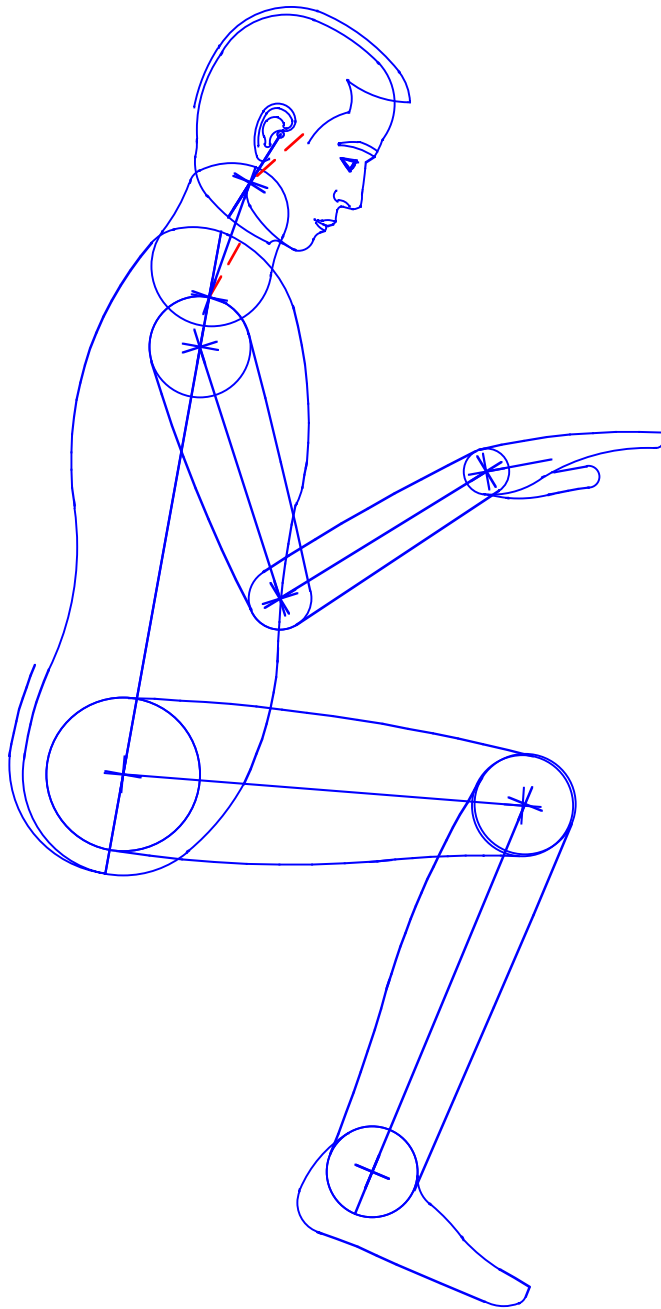

4. Select and delete unwanted limbs.

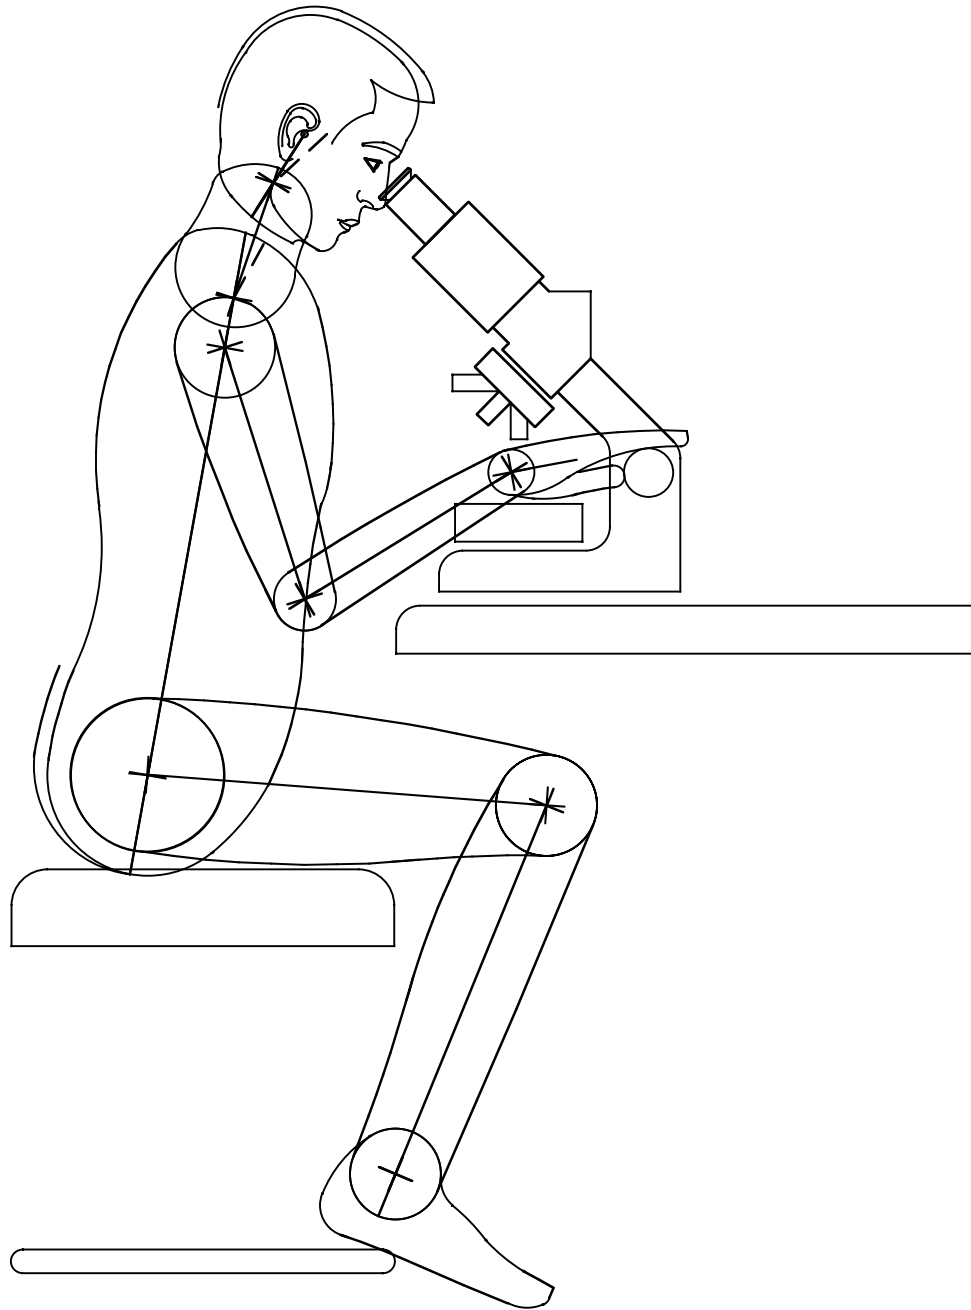

5. Select and rotate elements that comprise a limb. In this example: thigh, calf and foot. Rotate around the hip pivot point.

6. Select only the calf and foot. Pivot.

7. Select torso and associated elements. Pivot at the hip to desired position. Tilt head and neck. Position arm and hand.

8. Complete the scene using your product or environment.

The following pages show examples of the figures that you will find on the full version of ErgoForms.
